RE: Conflict Minerals Inquires

Dear Customer,

Legacy Electronics Inc. undertakes due diligence to attempt to determine if "Conflict Minerals" are used in our products. Conflict minerals are materials such and Gold (Au), Tantalum (Ta), Tungsten (W), and Tin (SN) that are sourced from the Democratic Republic of Congo (DRC) or adjoining countries from mines controlled by non-governmental military groups.

As part of Legacy Electronics Inc. qualification process for new suppliers, a metals questionnaire requires confirmation that materials that we purchase do not contain material from the Democratic Republic of Congo (DRC). In addition, we are annually reviewing our existing supply base and particularly suppliers of products that may contain the four minerals as described above.

At the present time, we have no indication that any products that we sell contain conflict minerals.

Best Regards,

A handwritten signature in black ink that reads "Duff Vavra". The signature is written in a cursive, flowing style.
